

FITC anti-human CD159c (NKG2C) Antibody

Catalog# / Size	375021 / 25 tests 375022 / 100 tests
Clone	S19005E
Regulatory Status	RUO
Other Names	Killer Cell Lectin Like Receptor C2, KLRC2, NK Cell Receptor C
Isotype	Mouse IgG1, κ
Description	CD159c, also known as NKG2C or KLRC2, is a type II transmembrane protein. It belongs to the killer cell lectin-like receptor family also known as the NKG2 family. It is expressed on NK and NKT cells and T cell subsets. NKG2C is an activating NK cell receptor and it is expressed as a heterodimer with CD94. In humans, the NKG2C/CD94 complex interacts with HLA-E on target cells and delivers activating signals through immunoreceptor tyrosine-based activation motifs.

Product Details

Verified Reactivity	Human
Antibody Type	Monoclonal
Host Species	Mouse
Immunogen	Human NKG2C/CD94-transfectants
Formulation	Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and BSA (origin USA)
Preparation	The antibody was purified by affinity chromatography and conjugated with FITC under optimal conditions.
Concentration	Lot-specific (to obtain lot-specific concentration and expiration, please enter the lot number in our Certificate of Analysis online tool.)
Storage & Handling	The antibody solution should be stored undiluted between 2°C and 8°C, and protected from prolonged exposure to light. Do not freeze.
Application	FC - Quality tested
Recommended Usage	Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis . For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells in 100 µL staining volume or 5 µL per 100 µL of whole blood. It is recommended that the reagent be titrated for optimal performance for each application.
Excitation Laser	Blue Laser (488 nm)
Application Notes	S19005E does not crossreact with mouse CD159c.
RRID	AB_3683404 (BioLegend Cat. No. 375021) AB_3683404 (BioLegend Cat. No. 375022)

Antigen Details

Structure	Type II transmembrane proteins of the C-type lectin superfamily
Distribution	NK cells, NKT cells, T cell subsets
Function	Activating NK cell receptor

Ligand/Receptor	HLA-E
Cell Type	Lymphocytes, NK cells, NKT cells, T cells
Biology Area	Immuno-Oncology, Immunology
Molecular Family	Immune Checkpoint Receptors

Product Data

Human peripheral blood lymphocytes were stained with anti-human CD3 (clone UCHT1) APC and anti-human CD159c (NKG2C) (clone S19005E) FITC (left) or mouse IgG1, κ FITC isotype control (right).
